Thank you for your interest in our products.

Australian Seed Company was established in 1957. We specialise in the collection, processing and sale of tree and shrub seeds, particularly those of Australian origin. We also offer a wide range of Australian wildflower and native grass seeds.

The company is owned by Bourne Forestry Services Pty. Ltd. (ABN 75 001 023 445), forestry consultants and forest managers, having over forty years experience in commercial forestry and the silvicultural requirements of Australian tree and shrub species.

AGENCIES

Our agents in the following regions will be pleased to receive your enquiries:

Canberra and Southern Tablelands - A range of seeds suited to the local conditions is carried by Lyndfield Park Nursery, 013 Oolong Road, Gunning - phone (02) 4845 1282, fax (02) 4845 1431. The Manager, Mr. John Weatherstone, has extensive experience in tree establishment and the direct sowing of Australian native seeds. He has kindly authorised the inclusion in this catalogue of several photographs of his award winning property at Gunning.

Hunter District - Our seeds may be obtained through Kirkwood Produce Co. Pty. Ltd., John Street, Singleton - phone (02) 6572 2766, fax (02) 6571 1799. This well-respected firm has serviced the Upper and Lower Hunter Valley since 1921. Mr. Marcus Kirkwood will be pleased to advise on the availability and supply of our range of native tree and shrub seeds.

WILDFLOWER SEEDS IN RETAIL PACKETS

Seeds of many Australian wildflowers and other native plants are available in retail packets from Wildlife Presentations, P.O. Box 74, Kingsgrove NSW 2208 - Mobile 0414 256-906.

“The Australian Native Plant Gardener’s Almanac” by John Blay is also available from Wildlife Presentations (price \$22.50 including postage to Australian addresses). The illustrated planting guide provides a wealth of information about many wildflower species, their features, flowering times and special requirements. We gratefully acknowledge the author’s consent to reproduce a selection of John Blay’s illustrations in our seed catalogue.

TERMS OF TRADE

AUSTRALIAN SEED COMPANY ACCEPTS ORDERS FROM PURCHASERS UPON THESE TERMS:

Orders and requests for quotations may be made by phone, mail, fax or e-mail.

Prices: This list supersedes all previous price lists. All prices in this catalogue are expressed in Australian dollars at seed store, net of Goods and Services Tax. GST is payable on domestic orders upon issue of a Tax Invoice. Prices are subject to change without notice.

Except where otherwise indicated in this catalogue, the following rates apply:

10 gms to 24 gms .. at 10 gm rate	100 gms to 249 gms .. at 100 gm rate
25 gms to 99 gms .. at 25 gm rate	250 gms and above .. at Kilogram rate

Weights are net, when packed. The smallest quantity quoted for a species is the minimum order accepted. Where possible we shall be pleased to quote discounted prices for large quantity orders.

Postage or freight on domestic orders is charged to the purchaser at cost - minimum \$4 per despatch. Orders of less than \$25 are subject to a handling charge in addition to postage. Orders above \$100 value will be registered.

Payment: New customers are requested to submit payment with their first order. Established customers may arrange credit account facilities, in which case payment is expected strictly in accordance with arrangements made.

Bankers: Westpac Banking Corporation, Leura NSW - BSB 032-828, Account No. 130274.

Despatch: Orders are despatched by mail unless otherwise arranged. Risk in the seed passes to the purchaser upon our delivery to the Post Office, freight depot or other place of despatch. If required by the purchaser, transit insurance can be arranged by Australian Seed Company when the order is placed.

Availability of seed: Seed will often be available ex-stock. However, if requested, those seeds not immediately available may be placed on back-order for supply from the next harvest. Unsupplied back-orders are cancelled after 12 months. Forward orders may be accepted subject to crop success of the next harvest. Seeds of some species, including Eucalypts and Angophoras are supplied in the natural state, which includes a proportion of "chaff". However, as required for automatic sowing equipment, seeds of many Eucalyptus species can be supplied in pure form subject to the quantity required permitting economic processing. Please enquire regarding prices and availability of this service.

Most native grass seed is collected from natural stands and may therefore contain a small proportion of other species occurring in the stand. Seed of native grasses is usually supplied in the floret form, except where availability of pure seed is indicated.

Species Identification: Parent plants are carefully identified, and independent botanical confirmation is arranged if doubt exists. We shall be pleased to quote for collection of seed from special strains or provenances of listed species.

OVERSEAS CUSTOMERS

Payment is to be submitted with the order unless prior arrangements for credit have been made. Payment should be made in Australian currency by Bank Draft, International Bank Cheque, Telegraphic Transfer or by Internet Banking. If by Telegraphic Transfer, a bank charge of \$10 is payable by the customer, and this amount should be included in the remittance.

Quotations: Please enquire regarding availability of seeds and obtain our firm quotation prior to submitting an order. Quotations on an FOB, C&F or CIF basis will be provided as required. **It is the purchaser's responsibility to check and advise us of your country's import requirements.** Documentation such as Import Permits, where necessary, should be supplied to us by the customer for inclusion with the shipment. If a Phytosanitary Certificate is required by the customer, Government fees and any associated costs are payable.

Postage or freight on overseas orders is charged at cost. Overseas orders of less than \$100 are subject to a handling charge in addition to postage or freight. If insurance is required, this should be arranged when the order is placed.

LIMITATION OF LIABILITY

Seeds are supplied for propagation only, and should not be used for consumption by humans or livestock. Propagation is subject to many variables over which we have no control and therefore productiveness cannot be guaranteed. In most cases seeds are collected from natural stands and characteristics can vary because of genetic variability. Impurities may exist in seed supplied, depending upon the practicability of their separation and removal. In all cases, and in any event, our total responsibility is limited to the invoiced value of the seeds supplied, which at our option we may replace with seeds of the same description, or may refund the cost. In no event will we be liable for any special, incidental, indirect or consequential damages or exemplary or punitive damage to persons or property.
